## WHERE-TO-BUY

and SUPPLIES USED IN ALL PHASES

We believe this directory to be the only classified list of all types of equipment, supplies and special services purchased nationally by shippers, freight carriers and warehousemen. It has been carefully compiled from informa-

tion obtained at source, both by our editors and field staff. We have attempted to standardize the nomenclature instead of using multiple classifications for a given piece of equipment, illustrating certain types for clarification.

These Exclusive Eaton Features
Keep Trucks on the Job, Reduce
Upkeep, Add Thousands of Miles
to Axle Life—

- PLANETARY GEARING
- FORCED-FLOW LUBRICATION

Specify Eaton 2-Speed Axles; they double the conventional number of gear ratios, enabling drivers to select a ratio for pulling power or speed, a ratio best suited to road and load conditions. This permits engines to operate in their most efficient and economical speed range, cuts gas and oil consumption. It reduces stress and wear on engine and power transmitting parts, holds maintenance time and cost to a minimum, adds thousands of miles to engine and over-all vehicle life. Your dealer will explain how Eaton 2-Speed Axles will help your trucks haul more, faster, at lower cost. They pay for themselves over and over, and give trucks materially higher trade-in value.

PATENTED LEG DESIGN

disperses shocks and overloads over a larger segment of raceways. Resists distortion. Lasts longer!

LARGER SECONDARY RACEWAY AND BALLS

provide tremendously increased swiveling efficiency and greater shock absorption of overloads. Easier working!

COINED RACEWAYS

insure smoother operation through extra hardness. Improve with use!

Moving 4000 lbs. at a snail's pace or up to 8 mph. and maneuvering into any corner the truck will fit . . . all at a cost of one gallon of gas per 8 hour shift is the record of this Wisconsin-powered Hyster Salsbury Turret Truck, made by The Hyster Co., Portland, Ore.

New and unusual industrial service units are being introduced by manufacturers every day, to which Wisconsin Engines are assigned as the logical power choice. Wisconsin Engine features such as snug compactness, light weight, heavy-duty construction, tapered roller bearings at both ends of the crankshaft, fool-proof air-cooling at all seasons, and an easily serviced OUTSIDE magneto, with impulse coupling for quick starting . . . combine to give Wisconsin Engines preferential ratings as power com-ponents on a great variety of original equipment in many fields.

4-cycle, single-cylinder, two-cylinder, and V-type 4-cylinder types, 3 to 30 hp. Your inquiry is invited.

EVERY loss, no matter how small, endangers the good will and good product every package carries. The source is packing; check yours and call in our experts for help. That ounce of prevention more than often is the PROTEX Packing Pad...the Superior Cushioning protection that costs less.

Huge claim payments represent a serious economic loss. Aside from the monetary damage, which must be proved, there is the annoyance and expense of processing claims. To avoid that many legitimate claims are never filed. In such cases customers just stop buying. Are you running that risk?

#### GENERAL LINE OF SPECIAL NAILS

#### For New Pallets For Pallet Repairs

These nails with extra holding strength are finding an extended variety of uses. Large quantities are used in the manufacture of warehouse pallets to prevent the pallet deck boards from working loose during re-peated handling. The nails do not work loose because of temperature changes of the material into which they are driven. They are proof against the racking, while in motion, of railroad car bodies, wooden vehicles in general, prefabricated building sections, boats, docks subject to wave sections, action, flooring, planking, roofing, etc. The best carpenters and architects know the improved results that these nails make possible. They are manufactured at Evanston, III., Birmingham, Ala., Galveston and Houston, Tex., Los Angeles, Calif., and Burlington, Distribution from these factory points enables us to deliver nails with reasonable promptness, and we make a distinct effort to handle the special nail requirements of a large number of users.

R. E. LEE, President Lee Way Motor Freight, Inc.

Lee Way Trailers carry daily needs of every description from Lee Way terminals through 6 states. 210 Aerovans, 84 Stainless Steel and 87 Truck Bodies make up this modern, hard working fleet.

"Operating on a 'time-table' schedule as Lee Way does', says R. E. Lee, President, "makes it absolutely necessary that we have sturdy, dependable equipment. Fruehauf Trailers certainly offer dependability. Their extreme roadworthiness and ability to 'take

it' make them a particularly adaptable Trailer for our use.

"Lee Way, from the first, has been built on customer service . . . and the Southwest has come to recognize our yellow and black Fruehaufs as the Trailers that carry anything anywhere!"

## DRIVERS LIKE FRUEHAUFS

#### GRAVITY-TANDEM SAVED A LIFE FOR LEE WAY

Supt. of Drivers, Phillips, says "The Fruehauf Gravity-Tandem Suspension saved a driver's life. To avoid collision, driver Thomas took a G.T. Aerovan down a 100 foot embankment. The flexibility of the underconstruction kept the 30,000 lb. load upright, the driver safe."

#### STRATEGICALLY SPOTTED

TERMINALS BRANCHES

throughout Lee Way's territory are Fruehauf Service Branches. Where there's a Lee Way Terminal there's a Fruehauf Branch, for fast, dependable service on everything from regular maintenance to major rebuilding.

of Lee Way, says, "Our Fruehaufs have helped us achieve our safety records because they trail easier, reduce driver fatigue. Good equipment pays off with our drivers, too. They like to pull Fruehaufs."

POUTSTANDING RESULTS WITH COMBINATION ...

# WHITE 3000 and Mustang Power"

MODERN and efficient delivery equipment—White 3000 powered by Mustang Power.

That's the report from Bachman Bakeries, Inc., Reading, Pa.

"Our drivers report good roadability, comfortable ride and outstanding maneuverability in city traffic and over-the-road," Arthur T. McGonigle, President, reports. "Our large, bulky loads require maximum body sizes, and we find shorter wheelbases and wide tread front-axle permit much better positioning for loading and unloading, saving consider-

able driver time and exertion. "Accessibility to vital parts has reduced our maintenance cost in labor and time out of service—another White advantage," Mr. McGonigle reports.

In every way, it pays to modernize with the White 3000. See your White Representative for full information on its cost-savings advantages in your business.

PRETZELS from Bachman's go by White 3000 all across Eastern United States. These units average 75,000 miles per year... carry maximum payloads ... have ideal flexibility for wide range of terrain covered.

#### CONTROLLED DISTRIBUTION

To secure your share of trade in any important market it is essential that you maintain a spot stock of your products at that point. Buyers are not willing to wait for shipments from distant points, neither are they willing to carry large stocks nor to buy in quantity. Your ability to sell your products therefore depends largely on having stock from which immediate deliveries can be made; and an organization back of the goods which will insure prompt service.

Cars consigned to yourselves in care of any warehouse company affiliated with Allied Distribution Inc., are delivered direct to the warehouse on private railroad siding without additional switching charges. On arrival these cars are handled immediately and in accordance with any instructions given. Warehouse receipts are issued and proper steps taken to protect you in case of any loss or damage enroute.

The warehouse companies listed here have adequate facilities in the country's foremost distributive centers. They are eager to cooperate with you collectively thru Allied Distribution Inc., or individually as best meets your needs.

We look forward to many opportunities to serve you. Information concerning storage and distribution facilities, services and charges will be furnished on request and without obligation.

For authentic information about all warehouses affiliated with Allied Distribution Inc., refer to the current issue of Distributors' News. If you are not on this monthly mailing list, send for free copy.

**SUCCESSOR** AND UNDER THE SAME MANAGEMENT AS **DOUGLAS SHIPSIDE** STORAGE CORPORATION **ESTABLISHED 1930** TO SERVE THE PORT OF NEW ORLEANS

At the gateway of the midcontinent, with easy access by steamship, barge, rail and truck, stand 10 modern Gulf Shipside warehouses . . . more than 200,000 square feet of covered and 300,000 square feet of open yard storage . . . public, state and U. S. customs bonded . . . served by a new 500 foot wharf, shipside tracks, a cotton compress, and the latest in pallets and materials handling equipment.

Gulf's experience, know-how and historic integrity are behind this steadily growing business, founded on the satisfaction of clients today and over a period of 20 years.

These advantages, combined with important savings in handling costs, shipside freight rates and carrier tariff absorptions have made storers feel that in New Orleans, the best is Gulf Shipside.

# In Buffalo AMERICAN is the leader

Agent for ALLIED VAN LINES, Inc.

IN BUFFALO, the American, with its American and Niagara Storage warehouses, offers greatest capacity of household and commercial storage in Western New York , more than 1100 individual rooms, locked and sealed. Heated rooms for pianos. Special vaults for valuables.

SK nearly anyone in Buffalo what storage company has had the finest reputation over the years ... and I the answer almost invariably will be: "American."

Headed by prominent Buffalo citizens, the American has enjoyed business relationships which in many instances have extended over periods of 20, 30 and even 35 years.

## Saving Money for Storers in New York

Distribution and Warehousing New York State A.B.C. Board Warehouse Permit Lehigh Valley Railroad Siding

## WAREHOUSE AND LOCATION

The Midtown Warehouse, Inc., is in the Starrett Lehigh Building. Considered the most modern industrial building in New York City.

Situated on the sixth and other floors. Capacity more than 250,000 square feet. 85,000 square feet U. S. Bonded Warehouse.

## VENTILATING, HEATING, ETC.

Warehouse is light, airy and well ventilated. Heated in the winter by modern thermoleer units which are thermostatically controlled, allowing us to maintain any desired temperature with these instruments.

## WAREHOUSE ACCESSIBLE

By freight or truck elevators. Elevator capacity more than 30,000 lbs. Merchandise can be loaded or unloaded on street platforms or in truck pits right outside of our warehouse doors inside the building. This eliminates the hazards of street loading.

## LOW INSURANCE

Compare with others. We are absolutely fireproof.

## RAILROAD SIDINGS

Building is known as less carload station on Lehigh Valley tracks. This permits us to handle either carload or less carload freight without cost to the storer.

## FREE CALL AND DELIVERY SERVICE

By all R. R., coastwise S. S. carloading Co.'s and long distance Truck Operators.

## DEEP SEA AND COASTWISE PIERS

We believe we are ideally located for both. This should result in a low cost of cartage to or from this particular point.

## INSPECTION INVITED

We respectfully invite you to inspect the premises at any time, at your convenience so that you may see for yourself the modern warehouse we are operating.

We call attention to our affiliate ultra-modern warehouse at 29.39 Pavonia Ave., Jersey City, N. J. Situated on the Erie R.R. and Hudson River. Send for further details of this warehouse—The Mid-Hudson.

Huntington, the largest city in the state is the gate-way to the billion dollar coal fields and the Tri-State way to the billion dollar coal needs and the ITI-state territory. Are you taking advantage of the opportunity this territory offers for your product? These people are really spending money. A good salesman, sufficient stock to care for the business and quick shipment thru the warehouse is a combination that will get and hold the business.

Above is an actual photograph of four buildings owned outright by us—A city long block of valuable property constituting part of the financial responsibility behind this organization.

For more than a quarter of a century these buildings have been storehouses for merchandise produced in the United States and throughout other parts of the world.

Since its inception the National Warehouse Corporation has, through the years, continuously served its original patrons—a clear indication of good customer relations.
